

Recently I was awarded the Navy and Marine Corps Accomodation Medal (NAM) for succesfully protecting the USS BATAAN while deployed in a hostile war zone for 6 months. Along with that accomplishment I wrote a Standard Operating Procedure (SOP) for the shipboard Hostile-Forces Integrated Targeting Service (HITS).

I also recently, in July, went to NETA2005 which was a Geospatial Metadata Analysis (GMA) course which trained me in a different field of work involving cellular communication methods and developments.

Currently my roomates and I moved from the apartment in Martinez to a new home in North Augusta. Mike bought the house and basically it's 2700 Sq Ft, 3 Bdr, 2 Full Bath, 3 Acres of land. The address is 2023 Ascauga Lake Rd, North Augusta, SC, 29841.
